Sinthetic At Sinthetic we are notable for our gorgeous, super-realistic silicone foot.

They are offered by us in various designs and sizes. Our legs look genuine since they're created from life casts of genuine models. The brief foot are solid silicone (no internal framework) and end just over the ankle. The high foot have a similar structure that is internal the dolls (ankle joint, cores etc) closing just underneath the leg. The high foot additionally have actually tiny hooks towards the top that can be used for hanging and posing. Your own feet are completed utilizing the materials that are same information whilst the legs on Sinthetic manikins.

Concerning the foot: We presently provide three varieties of foot for sale in brief, Tall and Vajankle (brief). They have been intended to purchase in picking a epidermis nail and tone color. All designs are molded from life you would expect so they have the detailed skin texture. Your toes have actually a different toe that is big one other feet are accompanied for durability. There's absolutely no structure that is internal the feet. You can easily cut them aside to split up if you want. We try not to suggest this since it significantly decreases durability and in addition causes flat unfinished spots where the feet had been connected. Each couple of legs is delivered with a set of footwear. The present estimated manufacturing time for legs is 10 – 12 months (plus delivery time).
